Elemis “Modern Skin Facial”

The facial for today's 20-something skin

ambers are very excited by the **NEW “Modern Skin Facial”**, the latest addition to the Elemis Skin Solution Facials portfolio especially for everyday skincare concerns. Designed by Noella Gabriel, *this is for the 20-something woman who is finding her skin challenging, reacting to the effects that modern lifestyle has on your skin.*

The key benefits:

- ✓ **Raises mineral levels**
- ✓ **Regenerates skin cell**
- ✓ **Rebalances sebum levels**
- ✓ **Reduce rosacea**

Noella Gabriel, Director of Treatment Development, explains how this facial works...

“I specially designed this facial to deal with today's ‘modern skin’. I am constantly seeing young women with skincare concerns that manifest from modern everyday lifestyle stresses, pollution and diet. This facial focuses on rebalancing the micro-flora (every element of facial skin's matrix) and pH level by using layering of products. The key element is layering of Visible Brilliance serum together with the ‘Mineral Rich Peel-Off Mask’ together these are a power anti-oxidant rich in minerals, vitamins and moisturisation to reveal a clearer, radiant, more balanced, glowing skin.”

The “Modern Skin Facial” journey:

As with all Elemis spa-therapies, this facial starts with the ‘awareness touch’, from cleansing of the soles of the feet to the cleansing of the mind with deep abdominal breathing to soften the body.

The facial begins with **Pro-Radiance Cream Cleanser** being massaged into skin to remove make-up gently and detox, then skin is toned with a prescribed Elemis Toner to remove excess cleanser and leave it soft and clean. A rich soothing massage cream designed to support the lipid barrier is then massaged into face, around eyes and neck followed by a layer of **Papaya Enzyme Peel**, a cream fruit exfoliator and removed and skin is toned. Then **Visible Brilliance radiance serum** is applied and instantly absorbed followed by the unique ‘**Mineral-Rich Peel-Off Mask**’ containing Zinc, Copper and Magnesium together with Swiss Garden Cress that works deep into the skin to boost mineral levels and the layering on top of products gives skin ability to absorb at a deeper level. Whilst mask sets (6-8 mins) your therapist performs a dry scalp massage to ease tension, then mask is removed and skin is toned.

Next the appropriate **Cellular Recovery Skin Bliss Capsule** is applied (Lavender to balance sebum or Rose to moisturise) followed by a layer of **Exotic Cream Moisturising Mask** (left for 6-8 mins) whilst therapist performs a neck and shoulder massage using **Exotic Frangipani Monoi Moisture Melt**. Once mask is removed **Absolute Eye Serum** is applied to contour of eyes and **Pro-Collagen Lifting Treatment Neck & Bust** is applied to décolleté and finally to lock in moisture **Daily Redness Relief** and **Maximum Moisture Day Cream** is applied to keep skin calm and protected.

The Result:

A brighter, clearer, radiant, more balanced skin
